ABOUT ME

Results-driven IT professional with a solid background in Oracle development. Equipped with hands-on expertise in designing, implementing, and maintaining robust solutions. Adept at collaborating with cross-functional teams to analyze business needs and translate them into scalable technical solutions. Seeking a challenging role where technical skills, creativity, and a dedication to excellence can contribute to organizational success.

EXPERIENCE

Oracle Developer | Oracle Apex Developer
Khair-ul-Bashar Solutions   Aug 2020 - Sept 2023

- Designed, developed, and maintained Oracle Forms, Reports, and modern APEX applications.
- Installed and configured Oracle databases, APEX, and ORDS for optimal performance.
- Implemented robust backup strategies, managed client queries, and customised software.
- Implemented robust backup strategies to ensure data integrity and availability.
- Customising software to meet user requirements.

Oracle Developer | Oracle Apex Developer
Railway Construction Pakistan Ltd.   Sep 2023 - Till date

- Led migration from Oracle Forms to APEX, transforming applications for modern solutions.
- Configured APEX, ORDS, and databases, ensuring seamless operations.
- Conducted regular performance tuning, troubleshooting, backup strategies and optimization activities to maintain optimal functionality.
